A BUSINESS MAN OF MINNEAPOLIS

MR. E. M. TAYLOR,

No. 250 Nicollet St., Minneapolis, Minn. pany, Columbus, Ohio:
"To-day I am in excellent health. Never felt better in my life. I am glad of this opportunity to say something to all men or women who suffer from dyspepsia and stomach trouble. I consider Peruna a great remedy. It is a godsend."

A new book of interest to all, sick or well, sent free by the Peruna Company.

Minneapolis is a city where they do things. Stimulated by a vigorous climate, surrounded by a fertile country, peopled by the best blood of the over crowded east, it is a city of hustle, of great achievements conceived and wrought out.

Mr. Taylor, of Minneapolis, Minn., is one of this sort of men. A newspaper man. A political worker. An Englishman by birth. He has been in this country nineteen years. He has resided in the northwest, Winnipeg, Fargo, and for the last ten years in Minneapolis.

Mr. Taylor is a friend of Peruna, and does not conceal his friendship. He is thoroughly enthused with the belief that Peruna is a great remedy. He has a right to feel so. For several years he suffered with dyspepsia. This caused him to have very bad health.

Newspaper advertisements would never have influenced him to take Peruna. It was friends that persuaded him to try the remedy. In less than a week he needed no more persuasion. He saw that Peruna was doing him good. He is able to say in a letter to the Peruna Company.

WILL IT PAY ME TO BUY A CREAM SEPARATOR?

LISTEN—Butter is too valuable a product to feed to calves or pigs.

Originally the calf got all the cream. When the milk was set on the cellar shelf, the calf got half the cream and the other half was made into butter.

By setting the milk in spring water the calf gets one-third the cream and two-thirds go to butter. The patent creamer, with ice, gets three-fourths of the cream for butter and one-fourth goes to the calf in skim milk.

The Tubular Separator

Made by Sharples Separator Co.,

GETS ALL THE CREAM

for butter making. Just figure out how much a Sharples Separator will really make for you in a year.
